

CHEM FLOWTRONICS

Sanitary Sight Flow Indicators

Model 1125

Chem Flowtronics dual Window Sanitary sight flow indicators are designed for high purity/sanitary piping systems, with tri-clamp ends. The Model 1125 offers a large view window for a full view of process flows @ full line pressures and temperatures.

This unique design allows for 100% drainage of body cavity when installed in the proper orientation. Standard PTFE gaskets, tempered borosilicate glass windows, and engineered glass lens flanges, all insure long product life under the toughest of applications.

Standard material of construction is 316SSL grade, with 180 grit ID or 20Ra finish.

Features:

- Tri-Clamp ends
- PTFE gaskets
- Tempered Borosilicate Glass window
- Drip tube
- Lens Flange Glass Shield

Options Available:

- Alloy wetted surfaces
- All stainless construction, including hardware
- Acme or Butt weld ends (see model 202)
- Non standard face-to-face
- Variety of ID & OD finishes
